16.

[redacted] Mr. Meyer, in the office of Representative Gerald Ford, called to say that a constituent had queried the Congressman with regard to the upcoming International Youth Rally. The constituent is interested in knowing what counter-measures are being taken by this country. I advised Meyer that anything that we might be doing would not be for publication and added that this inquiry should probably be directed to State Department and USIA. I did indicate, however, that I would look into it for him.
